No part of this activity may be reproduced or shared by any electronic or mechanical means including photos, information storage and retrieval systems, without permission in writing from the publisher.

### **Instructions:**

Write out a fun family activity on the apple below. Make sure part of the word or sentence is on each puzzle piece. Cut the pieces apart and do one of the following.

1. Tape one puzzle piece to one apple and hide the apples around the house/grounds/classroom. If you have teams, use red apples for one team and green or yellow for the other so they can easily tell whose clue/piece it is.
2. Tape the puzzle pieces to different objects beginning with the letter A and place those object around the house/grounds/classroom. If you have teams, write A or B on the back of each piece to easily tell whose clue/piece it is.
3. Tape the puzzle pieces in various locations around the house/grounds/classroom. If you have teams, write A or B on the back of each piece to easily tell whose clue/piece it is.
4. Place each puzzle piece inside a sealed envelope and give one to each person. They have to open the envelope, get their piece and work with the others to solve the puzzle and get the activity clue. If you have teams, you can have one apple and envelope set per team or have each team try to guess the activity written on the apple with only half of the clues/pieces.

Once the puzzle is solved, complete the activity listed on the puzzle. This can be any activity you choose to do.
